LIMITED LIFETIME WARRANTY

Baja Designs proudly offers a LIFETIME WARRANTY against manufacturer's defect on all of the products that we manufacture.

These are comprehensive warranties; other than the exclusions below – you're covered. If your LED or HID bulb burns out, you're covered. Additionally, cutting off our connector or changing your lenses does not automatically void your warranty.

Exclusions:

Installation errors, abuse, misuse or crash damage. You must be the original owner of the product and be able to supply proof of purchase.

Li-Ion or Li-Po Batteries: carry a 2 year warranty.

NiCad DSK Batteries: carry a 90 day warranty

Dual Sport Kit Switches: carry a 1 year warranty.

Baja Designs manufactures its own products as well as resells products manufactured by others. Baja Designs makes no express or implied warranties on products not manufactured by Baja Designs including without limitation any warranties or merchantability and fitness for a particular purpose. We will however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

Baja Designs will pay the freight if your product is less than 90 days old, otherwise defective products must be returned to Baja Designs, Inc., freight prepaid. At our option, we will repair or replace items in question and return them at no charge. If the identical product is no longer available we will replace with a similar product of equal value. Baja Designs Inc. will not be responsible for any indirect or consequential damages in connection with defective merchandise.

Indemnification:

Buyer hereby acknowledges off roading, racing and driving at night are dangerous activities and that the products and/or supplies purchased from Baja Designs are used in an inherently dangerous activity that may endanger life and limb; and in no event shall the seller, or seller's heirs and assigns, be held liable for consequential damages, nor shall seller's liability on any claim for damages arising out of or connected with the sale, delivery, or use of purchased products and/or supplies exceed the purchase price of the products and/or supplies.

Customer satisfaction stands at the core of who Baja Designs is as a company. BD gives you a full 30 days to test out your new light and if you are not 100% satisfied with your purchase, you can send it back for an exchange or refund of the purchase price and applicable tax.

Exclusions:

Items purchased through a Baja Designs authorized dealer must be returned through the dealer. Only available on LED auxiliary lights and product must be in sellable condition at MSRP. Product that has been damaged in any way after the original purchase date will be excluded from this guarantee.

Single Stealth Configuration:

Remove the (2) 6mm nyloc nuts that are securing the original Stealth mounting brackets to the LED bar. There is a star washer under each original bracket so be careful not to lose these as you will be re-using them. Install the “Raptor” mounting brackets on to the Stealth LED bars as shown in the image below. Note where the (2) 6x18mm washers are to be installed.

Double Stealth Configuration:

Remove the (2) 6mm nyloc nuts that are securing the original Stealth mounting brackets to the LED bar. There is a star washer under each original bracket so be careful not to lose these as you will be re-using them. Install the “Raptor” mounting brackets on to the Stealth LED bars as shown in the image below. Note where the (2) 6x18mm washers are to be installed.

Single OnX6 Configuration:

The image below shows the configuration of the mounting brackets and hardware when using the OnX6 LED Light Bar.

Step 1:

Raise the hood and remove the 4 factory bolts on the left and right side as shown in the picture below.

Step 2:

Next you will need to install the Stealth/OnX mounting brackets onto your Ford Super Duty but make sure you leave the mounting bolts loose.

Step 3:

Install the Stealth/OnX LED bars onto the brackets making sure to include the rubber washer and stainless spacer between the LED bar and the mounting bracket.

Step 4:

Tighten the Allen bolts that secure the LED bar to the mounting brackets.

Step 5:

Center the LED bars in the opening of the grill and tighten the 4 mounting bolts.

Wiring:

Some of the Ford Super Duties come from the factory with 4 “upfitter” switches that are pre-wired with a relay and fuse. If you wish to use the factory switches you’ll need to purchase wiring harness kit (part #64-0093).

There are a total of four switches, 2 that are rated at 30amps, 1 rated at 15 amps, and 1 rated at 10 amps. Do not use the 10 amp switch for this installation. We have provided a link below that explains how to utilize these switches.

If your truck did not come with the factory upfitter switches or you would rather activate the Stealth LED lights off your high beams then you will need to purchase our Universal Stealth Wiring Harness (Part #64-0118).

If you wish to use the mode function then you will need to mount a momentary push button switch somewhere in the cab. You will need to run a wire from the green Baja Designs wire to one side of the momentary switch inside the cab.
