Instruction Manual P/N: TM-2019B-R / TM-2019B-D

Make: **Lexus** Model: **IS 200t** Year: **2016-2017** Engine: **L4-2.0L Turbo**

Make: **Lexus** Model: **IS 300** Year: **2018-2020** Engine: **L4-2.0L Turbo**

Note: **Includes F Sport.**

- Please read the entire instruction manual before proceeding.
- Ensure all components listed are present.
- If you are missing any of the components, call customer support at 951-493-7100.
- Ensure you have all necessary tools before proceeding.
- Do not attempt to work on your vehicle when the engine is hot.
- Retain factory parts for future use.

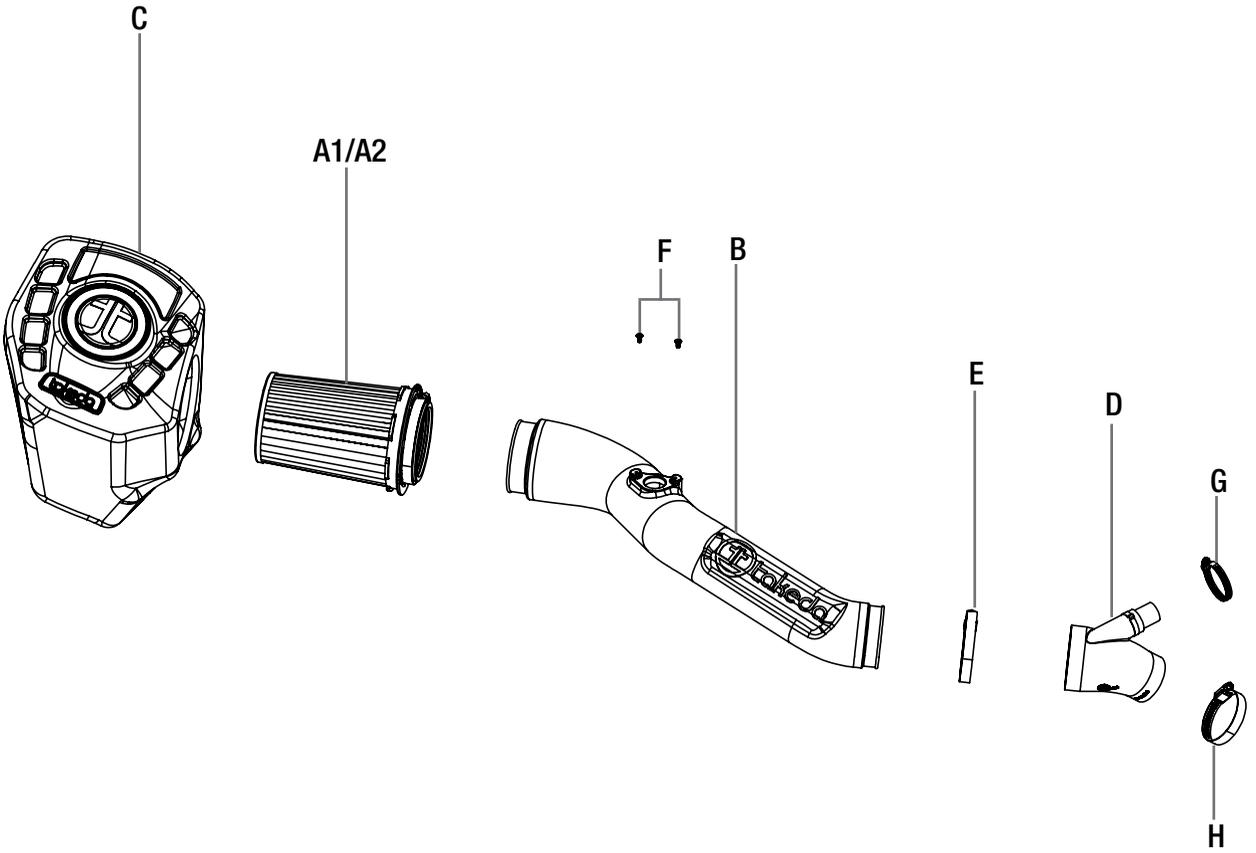

Retain factory parts for future use.

Label	Qty.	Description	Part Number
A1	1	Air Filter (Pro DRY S)	21-91103 (Grey Media)
A2	1	Air Filter (Pro 5R)	24-91103 (Blue Media)
B	1	Tube	05-T2019B1
C	1	Housing	05-T2019B2
D	1	Coupling, Silicone Elbow	05-01466
E	1	Clamp, #048	03-50007
F	2	Screw, Torx: M4	03-50491
G	1	Clamp Mini, #016	03-50091
H	1	Clamp, #032	03-50016

Installation will require the following tools:

Flat head screw driver, ratchet, 10mm socket, and 8mm nut driver.

Note: Legal in California for use on race vehicles only. The use of this device on vehicles used on public streets or highways is strictly prohibited in California and others states that have adopted California emission regulations.

**Figure A****Refer to Figure A for Steps 1-5**

Step 1: Disconnect the MAF sensor harness.

Step 2: Disconnect the crank case hose off the OE intake tube.

Step 3: Remove the two 10mm bolts on the OE housing and 10mm bolt on the OE intake tube.

Step 4: Loosen the OE clamp on the turbo inlet tube.

Step 5: Remove the OE airbox and intake tube as one piece, out of vehicle

Figure B

Refer to Figure B for Step 6

Step 6: Transfer the OE grommet from the OE air box into the Takeda airbox.

**Figure C****Refer to Figure C for Steps 7-9**

- Step 7: Install the Takeda housing in the vehicle by sliding the OE scoop into the housing and aligning the peg into the OE grommet on the vehicle.
- Step 8: Secure the housing to the vehicle by installing one of the 10mm bolt removed at Step 4 into the grommet inside the housing.
- Step 9: Slide the Takeda air filter into the Takeda housing, make sure the retain tabs on the filter lock it into place.

**Figure D****Refer to Figure D for Step 10**

Step 10: Install coupling onto turbo inlet tube with clamps and slide the crank case hose onto the aluminum fitting, do not tighten clamps at this time.

Figure E

Refer to Figure E for Steps 11-12

Step 11: Remove MAF sensor from OE airbox housing.

Step 12: Transfer MAF sensor into Takeda intake tube using the provided screws.

Figure F

Refer to Figure F for Steps 13-17

Step 13: Install the Takeda tube into the vehicle. Slide the tube first into the filter then into the coupling on the turbo inlet.

Step 14: Align the tube correctly then tighten all clamps.

Step 15: Re-connect MAF harness to sensor.

Step 16: Make sure all clamps and connections are secured. Your installation is now completed

NOTE: Check all bolts, clamps and connectors after 100-200 miles.

Warranty

General Terms:

- aFe warrants their products to be free from manufacturer's defects due to workmanship and material.
- This warranty applies only to the original purchaser of the product and is non-transferrable.
- Proof of purchase of the aFe product is required for all warranty claims.
- Warranty is valid provided aFe instructions for installation and/or cleaning were properly followed.
- Proper maintenance with regular inspections of product is required to insure warranty coverage.
- Damage due to improper installation, abuse, unauthorized repair or alteration is not warranted.
- Incidental or consequential damages or cost, including installation and removal of part, incurred due to failure of aFe product is not covered under this warranty.
- All warranty is limited to the repair and/or replacement of the aFe part. To request Return Goods Authorization ("RGA"), email RGA@afepower.com or call (951)493-7100. Upon receipt of the RGA, you must return the product to the address provided in the RGA, freight prepaid and accompanied with a dated proof of purchase and the RGA. Upon receipt of the defective product and upon verification of proof of purchase, aFe will either repair or replace the defective product within a reasonable time, not to exceed thirty days.

Product Category	P/N Prefix	Warranty duration
Direct OE Replacement Filters	10, 11, 30, 31, 71, 73	Life of the vehicle
Racing Filters	18	1 year
Universal	21, 24, 72, TF	2 years
Air Intake Systems	50, 51, 54, 55, 75, TR, TA, TL, TM	2 years
Exhaust Systems	49	2 years
Intercoolers & Intercooler Tubes	46-2	2 years
Intake Manifolds	46-1	2 years
Differential Cover	46-7	Life of the vehicle
Exhaust Manifolds	46	2 years
Throttle Body Spacers	46-3	2 years
Turbochargers	46-6	2 years*
Fluid Filters	44	90 days
Pre-Filters	28	2 years
Heavy Duty OE Replacement	70	2 years
PowerSports OE Replacement	81, 87	2 years
PowerSports Intake Systems	85	2 years

No other warranty expressed or implied applies nor is any person or advanced FLOW engineering authorized to assume any other warranty. Some States do not allow the exclusion or limitation of incidental or consequential damages or do not allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.
